ALV

FOGGER MACHINE

POWERFUL FOGGING. MAXIMUM PROTECTION.

ALV Fogger Machine is designed for ultra-low volume fogging to deliver fine mist particles that cover maximum area with minimum liquid usage. Ideal for disinfection, sanitization, and pest control in various environments.

KEY FEATURES

ULTRA FINE FOG

Produces micro fine mist (5–50 micron) for better coverage and effectiveness.

HIGH EFFICIENCY

Covers large areas quickly with low solution consumption.

ADJUSTABLE OUTPUT

Flow control knob to adjust fog density as per requirement.

EASY TO USE

Simple operation, portable design and low maintenance.

DURABLE & RELIABLE

Made with high quality stainless steel for long life and corrosion resistance.

APPLICATIONS

- ✓ Homes, Offices & Commercial Spaces
- ✓ Hospitals, Clinics & Laboratories
- ✓ Schools, Colleges & Institutions
- ✓ Hotels, Restaurants & Malls
- ✓ Warehouses, Factories & Industrial Units
- ✓ Pest Control & Vector Control Programs

Uses Less Liquid • Saves Time • Protects Better
Perfect solution for cleanliness & hygiene.

TECHNICAL SPECIFICATIONS

SPECIFICATION	DETAILS
Model	ALV Fogger Machine
Tank Capacity	4 – 5 Liter (Approx.)
Material	Stainless Steel (Body & Tank)
Droplet Size	5 – 50 Micron (Adjustable)
Flow Rate	0 – 60 ml/min (Adjustable)
Power Source	Electric (220V / 50Hz)
Motor Power	1000 – 1200 Watt (Approx.)
Coverage Area	Up to 10,000 – 15,000 sq. ft. (Approx.)
Cord Length	3 – 5 Meter
Weight	3.5 – 4.5 kg (Approx.)
Dimensions	32 (H) × 22 (W) × 22 (D) cm (Approx.)
